### Professional Summary

Versatile and results-driven Fullstack Web Developer specializing in the MERN stack (MongoDB, Express.js, React.js, Node.js) with over 3 years of experience. Demonstrated ability to design, build, and deploy robust, scalable web applications. Adept at both frontend and backend development, with a passion for creating seamless user experiences and efficient server-side solutions. Certified in Web Development with a strong portfolio of real-world projects and a commitment to continuous learning.

### Professional Experience

**Fullstack MERN Developer (Freelance)**

**Self-Employed | Remote** (Jan 2023 – Present)

Developed end-to-end web applications for clients, utilizing the MERN stack for both frontend and backend.

- Collaborated with clients to gather requirements, design wireframes, and deliver custom solutions.
- Integrated third-party APIs (payment gateways, authentication providers).
- Maintained and improved codebase quality, and implemented CI/CD for streamlined deployments.
